

GHP Far East strengthens presence in Vietnam

16.10.2012. Business process outsourcing provider GHP Far East has expanded with a new office in Ho Chi Minh city, Vietnam, to support its “booming” production as well as high demand on security from customers.

The official ceremony, held at Saigon ICT Tower, was attended by more than 200 participants, amongst them many high-ranking representatives of Vietnamese and Foreign companies, Universities, Organizations and Media.

Mr. Frank Schellenberg, CEO of GHP Far East said in his welcome words: ‘We concentrate our abilities in order to achieve higher productivity and provide more comfortable working conditions for staff and guests of the company. I want to thank all the employees of GHP Far East, who are major and integral part of our development’. Mr. Frank Juettner, General Director of TUV Rheinland Vietnam, in his greeting referred to the successful cooperation of his company with GHP Far East and expected a further expansion of partnerships over the next years.

'GHP Far East has become hugely successful because it offers a unique combination of Security, Quality and Price', said Mr. Frank Schellenberg

Mr. Chu Tien Dung, Director of Quang Trung Software City (QTSC) also expressed his pleasure of witnessing GHP Far East's growth during the last 8 years, and highly appreciates the company's contribution to QTSC and IT industry up to now.

GHP Far East, a 100% foreign investment company, is the leading provider in business process outsourcing (BPO) service in Vietnam. Main services include: Data Entry and Form Processing, Business solutions, IT Operational Services, Software Development, Image Processing and Scanning service.

GHP Far East's office in Saigon ICT tower - QTSC, can accommodate more than 1,000 people, occupying 2500 square meters, including the 4th, 5th and 8th. In particular, level 4 and level 5 is the area of production and quality management. 8th floor is a new area for the Reception and Back office.
